Name the key

Sharp keys: the key is a semitone above the last sharp.
Flat keys: the key is the second-to-last flat. (F major has one flat, Bb.)

SCALES & KEYS

Circle of Fifths

Clockwise, each key is a perfect 5th higher and adds one sharp. Counter-clockwise, each is a 5th lower and adds one flat.

Where a position has two names, the one with fewer sharps or flats is the main label and the other is smaller. At 6 o'clock both have six, so both are the same size.

"Music is the universal language of mankind."

Henry Wadsworth Longfellow, Outre-Mer, 1835

PRACTICE TIP

Practise slowly. Speed comes from playing it right, not from playing it fast.
